Shuttle OR Lock Stitch

SEWING MACHINES.

THE ATTENTION OF

Tailors, Manufacturers of Clothing, Boots and Shoes,

Harnesses, Carriage Trimmings, and all others who require

The Best and Most Effective Lock Stitch Machine

Is invited to the above.

The Lock Stitch Machines which have been employed in these branches of manufacture, have been defective in several essential particulars. They have been much too noisy and too much encumbered with cog-wheels or gearing, and wire springs, to be simple, durable and comfortable in use. In Grover & Baker's Improved Machines these defects have been entirely removed.

The No. 1 Machine is a new invention, and a most important advance upon all machines heretofore known for sewing with the Lock Stitch. It is of great power and strength, and is especially adapted for all descriptions of work to which the lock stitch is applicable. It works with equal facility silk, cotton, or linen thread, and will sew the finest muslin as well as the thickest leather.

The No. 9 is a light running machine, containing many improvements, adapted for tailoring, vest making, light shoemaking, as well as for family sewing. Large numbers of these machines, are in use, and they give universal satisfaction.

This is a curative and corrective Medicine. Has been tested in every form of Dyspepsia since 1847, and is guaranteed to cure 9 out of 10 of the most obstinate Chronic cases—is in fact as nearly a SPECIFIC for all derangements of the Stomach as it is possible for Medicine to be. It at once allays the irritations of the Stomach—strengthens the organs, assists digestion, corrects the secretions, in fact, restores the stomach and all the functions of digestion to a healthy condition, and by so doing, food is properly digested and assimilated to the system—the blood and secretions become pure and healthy, giving to each and all fresh countenances and healthy and vigorous bodies and minds. By first restoring the integrity of the digestive functions and purifying the streams of life at the fountain, it, more than any other remedy, cures, as well as prevents all diseases of Indigestion, such as Constipation, Diarrhea, Piles, Worms, Colic, Liver Complaint, Sick Headache, &c., &c.

 Should by all means be given to delicate children.

Would respectfully call the attention of the readers of this advertisement to their stock of General

DRY GOODS

Which, with our ample means, long experience in the Jobbing trade of our younger member of the firm, and advantageous connections with large Jobbing and Manufacturing establishments in this country and Europe, enables us to make it to your advantage to purchase largely from us. A SAVING of 25 to 30 per cent. on PURCHASES MADE FROM US.

We buy our goods for cash, and, doing business on principle and strictly one price system, for cash, we are enabled to offer you goods at a saving of 25 to 30 per cent. for the simple reason that we shall have no bad debts to make up by charging enormous profits.

**POINTS OF EXCELLENCE IN WHICH THE
AMERICAN
SEWING MACHINE
EXCELS ALL OTHERS.**

It performs a greater range of Work. It runs with less noise.
It requires less power. It is easier to Clean and Oil.
It has a longer arm, admitting the working of Larger Garments.
It is more perfect in construction, and less liable to wear out, or get out of repair.
It works **BUTTON HOLES** and **EYELETS**.
It Overseams and Embroiders on the Edge.
It Gathers and Sews on at the same time.
The Feed is adjustable, by raising or lowering to suit the different thicknesses of cloth.
The Shuttle is easier to thread, and taking the thread from a short deep bobbin, secures greater uniformity in the tension.
The Shuttle being carried in a vibrating arm, is subjected to no wear, requires no oiling, and the noise and friction of a "race" is avoided.
It is sold at a lower price, in proportion to the cost of manufacturing, than any other Machine before the Public.

BUFFALO EVENING POST.

Delivered to City Subscribers, or sent by mail, at the Low Price
 of \$5.00 per Year.

Liberal Discount Made to Newsboys and Newsdealers.

After twenty years of prosperous existence, the **BUFFALO EVENING POST** is a permanent institution. It is the only Daily in Buffalo which is not, more or less, under the control of a Clique of Politicians. It is thoroughly Independent in all things, and Neutral in none. The rights of the People, instead of the interests of a faction, are ever maintained by its Editor and Proprietor.

I have perfected arrangements by which all the material

**TELEGRAPHIC NEWS FURNISHED BY THE STATE
 ASSOCIATED PRESS,**

will be found in the **POST** each afternoon. The most thorough attention is paid to

THE LOCAL NEWS.

Especial care is devoted to the **LITERARY DEPARTMENT** of the Paper. A Good Story, Choice Selections, the General News of the Day, and pointed Original Articles, appear in each number.

THE BUFFALO EVENING POST, while known as an Independent Democratic Paper, fearlessly advocates at all times, what its editor and proprietor deems will most conduce to the welfare of the Nation and the City, regardless of the views or wishes of those who usurp the control of the Party. The **POST** is the only Daily Paper in Buffalo which boldly advocates the noble Cause of **TEMPERANCE**. An entire column is especially devoted to it in each issue of the paper, and no opportunity is omitted to help on the good work. On the same principle that the **POST** defies Unprincipled Political Tricksters, it refuses to surrender to the Ram Power. The liberal patronage for nearly a quarter of a century extended to the **POST**, encourages the undersigned to make renewed efforts to render it still more acceptable.

HAVING RECENTLY PURCHASED NEW

JOB TYPE AND PRESSES,

Of the most improved styles, I am prepared to execute all descriptions of Job Printing, expeditiously and in good taste.

GEORGE J. BRYAN,

Editor and Proprietor.

EVERY PIANO FULLY WARRANTED FOR SEVEN YEARS.

PIANOS TUNED AND REPAIRED IN THE BEST MANNER.

—*—

In returning thanks for the very liberal patronage we have received during the past ten years, we call the especial attention of intending purchasers and judges of good Pianos, to the very great improvements we have lately made in the manufacture of these well known and superior instruments—among which is a Combination Bridge, of a novel and peculiar construction, and for which we have received Letters Patent, the effect produced by its use being a quality of tone hitherto unknown in the best Pianos of the most celebrated makers, and far superior to the so-called agraffe. These instruments stand unrivalled in regard to their singing quality, volume and purity of tone, sympathetic, elastic and even touch, and durability of construction, which enables them to remain in tune much longer than ordinary Pianos. Purchasers will find them fully twenty per cent. lower than those of other first-class makers, and for actual wear, worth half a dozen of the so-called cheap Pianos.

OLD PIANOS TAKEN IN EXCHANGE.

PIERCE'S
Automatic Shingle Mill,

Saws from 20,000 to 25,000 Shingles in Ten Hours.

This Machine is constructed entirely of Steel and Iron; simple and not liable to get out of order. The block while receding is

RAISED CLEAR OF THE SAW,

so that the upper side of the saw is not dulled faster than the under, making a great saving of time in filing, and avoids making clips as are made in other machines. I use a 40 inch Saw, so that the carriage has a less distance to travel to saw a shingle of the same width than in a machine using a 36 in. saw.

THE BLOCK RECEDES 50 PER CENT. FASTER THAN

It Feeds, making a great gain over any other Self-feeding Machine.

I also Manufacture Double Block Self-Feeding, and Hand-Feed Single Block Machines.

OLD AND NEW.

A MONTHLY MAGAZINE.

EDITED BY REV. EDWARD E. HALE.

The first number of this journal was welcomed throughout the country with such cordiality that the publishers and proprietors are sure that their plan is well founded, and that their journal may fill a place heretofore unoccupied in our literature.

We hope to publish a magazine which shall be acceptable to young readers and old, — to men of culture, and to men who make no pretensions to culture, — to the East and to the West, — indeed, to all classes of thoughtful and conscientious Americans.

We mean to make the **Stories** in OLD AND NEW attractive alike to its youngest readers and to its oldest readers in their moments of recreation. We mean, also, to discuss the gravest themes, of **SCIENCE**, of **BUSINESS**, of **POLITICS**, and of **RELIGION**. We do not mean that these discussions shall be childish, any more than we mean that our stories shall be dull.

OLD AND NEW shall be so various in its contents as to find a ready place in the play-room, in the parlor, or in the library, — if we can make it so. It shall be popular, without being vulgar; philosophical, without being abstract; ideal, yet practical, — if we can make it so. Every number will discuss some prominent theological question; and without ceasing to be Christian, the journal will have an open eye on the world of art, letters, politics, and society. These discussions will be conducted in the single interest of truth. Our desire is, not controversy, but, to state the highest and best results arrived at in fearless science, in Christian morals, in free government, and in Liberal theology.

The **EXAMINER**, in each number of OLD AND NEW, will contain such reviews of books recently published in all parts of the world as shall guide buyers of books, and put them on their guard against what is worthless. It will contain from time to time such lists of new works as may be of use to young readers, to workmen, and to students far from the centres of publication.

The **RECORD OF PROGRESS** in each number attempts to give some connected account of the real improvements in social order in different parts of the world. We will, at least, chronicle the steps of the world's best endeavor. If we cannot always tell where it is really advancing. The January number of the **RECORD** was devoted specially to improvements in **Education**; succeeding numbers will touch on the **Homes of the People**, on **Sanitary Improvement**, on **Co-operative Experiments**, and other enterprises for the improvement of the methods of daily life.

In the literary, in the critical, in the scientific, and in the theological departments, the Editor has distinguished assistants. The journal must of course be printed in one place; but it does not pretend to be a local organ. There is no State in the Union, and scarcely is there an important city in the Old World, in which we have not active correspondents.

Early numbers of OLD AND NEW will contain papers by

Mrs. A. D. T. Whitney,	Hon. P. W. Chandler,	Prof. J. P. Lesley,
Mrs. Julia Ward Howe,	Rev. Robert Collyer,	Prof. Joseph Lovering,
Miss Mary A. Dodge,	Rev. Robert Laird Collier,	Rev. A. D. Mayo,
Miss E. Foxton,	Mr. R. W. Emerson,	Jos. P. Quincy,
Hon. Chas. Francis Adams,	Rev. C. Carroll Everett,	Horace E. Scudder,
Sidney Andrews, Esq.,	Rev. Washington Gladden,	Rev. George M. Steele,
Rev. Henry W. Bellows,	Rev. D. G. Haskins,	Rev. Horatio Stebbins,
Hon. William C. Bryant,	Prof. Nathan Hale,	Prof. J. B. Torricelli,
Rev. Thomas K. Beecher,	Prof. O. W. Holmes,	Hon. Andrew D. White.
	Prof. J. R. Lowell,	

OLD AND NEW is royal 8vo of 128 pages, handsomely printed.
